# MESSAGE FROM THE PRESIDENT

10 editions of InfoAiDIS!!!

A great achievement for this publication that allows us to disseminate, both among the members of the 24 National Chapters of AIDIS, and among all people and institutions linked or interested in environmental sanitation, the activities of our beloved Institution and its main achievements as well as its members. Today, together, it reaches more than 9,000 recipients, thanks to the efficient actions of the Headquarters in São Paulo, Brazil, and the efforts of numerous collaborators in all the countries of the Americas.

But the important thing is to be able to communicate the intense activity of AIDIS Interamericana carried out by its 24 National Chapters and its 15 Technical Divisions. One way to take advantage of these activities is to watch them live through the AIDIS Interamericana YouTube Channel, or if you have not been able to do so simultaneously with their development, watch the recordings of them on the mentioned channel.

This number of InfoAiDIS highlights how to access its Channel and see the last ten activities saved in it. Also highlighted in this edition are the activities of our colleague associations such as the International Water Association-IWA, the World Water Council-WWC, and the Pan American Sanitary Bureau, since it is the vision of AIDIS to work even more in networking with them, according to the final mandate of the 2nd. United Nations World Water Conference, held in March 2023, and where AIDIS participated as a specially accredited NGO.

Finally, the most important activity of this year 2024 is the 39th Inter-American Congress of Sanitary and Environmental Engineering, which will be held in Lima, Peru, in the last quarter of 2024. However, it is noteworthy that the 2nd. Region will hold the Central American Congress in San Salvador, El Salvador, in February 2024 and the 4th. Region will carry out the equivalent, in Rosario, Argentina, in June 2024. These are all signs of how active our institution is, which turned 75 years old in April 2023, but which has even more challenges ahead for its next 75 years than it had at its birth in 1948.

So let's continue with enthusiasm and the greatest possible collaboration all these activities in all the areas that cover Sanitary Engineering and Environmental Sciences.

Until the next edition!

Eng. José Luis Inglese

 Dra. Gladys Vidal  
 Directora AIDIS Interamericana

## WEBINAR ON WATER RESOURCES

On January 23, the webinar “The importance of the formation of water resources: the leaders that climate change needs” was broadcast on the AIDIS Interamericana YouTube channel, organized by the AIDIS Teaching and Research Division, DICEI.

In it they presented the Mg. Carolina Recalde from the National University of Asunción; the Mg. Evelyn Vicioso, Executive Director of Chile Sustentable and Dr. Diana Catalina Rodriguez from the University of Antonia. The moderator was Dr. Gladys Vidal, Director of AIDIS Interamericana and Centro Anid Chriam.

## IWA PROJECT INNOVATION AWARDS

IWA announced the call for entries for the latest edition of the Project Innovation Awards. Awarded every two years at the IWA World Water Congress and Exposition, the Project Innovation Awards recognize and promote excellence and innovation in water management, research and technology. The winning entries will be celebrated at a prestigious gala event with an audience of water leaders from around the world.

For more information about the awards, click [here](#).

# EVENTS AND TRAININGS

## SECOND REGIONAL PROCESS WORKSHOP OF THE AMERICAS – WORLD WATER COUNCIL

On February 1 and 2, the Second Regional Process Workshop of the Americas will be held for the 10th World Water Forum 2024.

It will take place in Buenos Aires, Argentina and the objective will be to specify the final details of the report for the South American subregion. Likewise, three thematic sessions will be held with additional topics, which are essential for the region's report.

The President of AIDIS Interamericana, Eng. José Luis Inglese was invited to actively participate by Dr. Sergio Campos, Head of the Water and Sanitation Division of the IDB and Benedito Braga, Honorary President of the World Water Council.

## XXXIII CENTRAL AMERICAN CONGRESS OF SANITARY AND ENVIRONMENTAL ENGINEERING

From February 21 to 23, 2024, the XXXIII Central American Congress of Sanitary and Environmental Engineering will take place in El Salvador, organized by the Vice Presidency of the 2nd. AIDIS Region, chaired by VPR Ing. Guillermo Umaña.

The motto is "Adaptation and Mitigation to Climate Change through the fulfillment of the Sustainable Development Goals."

The call for submission of technical work and for registration to attend is open.

# EVENTS AND TRAININGS

## 1ST INTERNATIONAL CONGRESS ON SOLID WASTE – ABES BRAZIL

The Brazilian Association of Sanitary and Environmental Engineering (ABES) will organize the first International Solid Waste Congress, from April 23 to 25, 2024.

The topic will be “Sustainable Solid Waste Management: Building Smart Cities”, a combination of three different events in one great event: VIII GRAL – WASTE MANAGEMENT IN LATIN AMERICA AND THE CARIBBEAN, 16th NATIONAL SOLID WASTE SEMINAR and IV INTERNATIONAL SYMPOSIUM SANITARY WASTE.

The Congress will take place in Sao Paulo, Brazil.

For more information, click [here](#).

## PRE-CONGRESS: INTEGRAL WASTE MANAGEMENT

Within the framework of the XXXIII Central American and VI National Congress of Sanitary and Environmental Engineering, the pre-congress course will be held: INTEGRAL WASTE MANAGEMENT, from February 19 to 21 in El Salvador.

The themes will be:

- Introduction to solid waste management,
- Functional elements of waste management,
- Application of statistical methods and development of sampling,
- Design of collection systems, design of neighborhood systems,
- Coverage and efficiency indicators,
- Administrative and management elements.

# EVENTS AND TRAININGS

## CALL FOR PROPOSALS FOR THE 10TH WORLD WATER FORUM

The call is open to present proposals for Good Practices and Experiences in the field of Water and Sanitation.

Until January 31, 2024, there is time to present yourself as an institution, company or person that positively impacts the sector.

A representative from each winning team will present their idea at a closing event, and they will be published as a successful case in the Americas Regional Report of the 10th World Water Forum.

For more information, consult by clicking here.

## EXPRESSIONS OF INTEREST FOR THE WATER AND DEVELOPMENT CONGRESS AND EXHIBITION 2025

IWA launched the call for "Expressions of Interest" for its Water and Development Congress and Exhibition 2025.

Applications are welcome for low- and middle-income countries and must be submitted to the IWA Secretariat by February 9, 2024.

You can download the Expression of Interest template by clicking here. You can also send your presentations to the following email: [Kizito.Masinde@iwahq.org](mailto:Kizito.Masinde@iwahq.org)

For more information go here.

## XXXIX INTER-AMERICAN CONGRESS OF SANITARY AND ENVIRONMENTAL ENGINEERING IN LIMA

In the last quarter of 2024, after 26 years, Peru will host the 39th Inter-American Congress of Sanitary Engineering Lima 2024.

It will have the participation of 40 member countries of AIDIS Interamericana, and more than 25 associated international organizations such as the World Bank, ECLAC, IDB, AIDIS, CAF, ISO, IWA, ETRAS, PAHO/WHO, OAS, UPADI, UNICEF, WEF, AWWA, among others.

For more information, click here.

## XXII CONGRESS OF SANITARY AND ENVIRONMENTAL ENGINEERING - XI CONGRESS REGION IV OF AIDIS

From June 12 to 14, 2024, the XXII Congress of Sanitary and Environmental Engineering and the XI Congress of Region IV of Aidis will be held in Rosario, Santa Fé, Argentina.

Within the framework of these Congresses, FITMA, the International Technology and Environment Fair, and the XI Sanitary Olympics will be held to reward the winning team with a trip to the United States to represent Argentina.
